

## What's the SIN Exam

The University of Waterloo's Department of Mathematics gives several Isaac Newton (SIN) awards each year to students preparing towards an Honours & Mathematics degree in either regular or cooperative application based on the results of SIN exam competition.

## What are the prizes?

Several Entrance Scholarships up to \$5000 are awarded to Waterloo's incoming high-achieving students. Additional prizes are also given to the top 10% of students.

Additionally, among the participating Dawson students, a \$3144 prize will be awarded along with books for the selection and placement of students.
